AMERCO Inc.

(UHAL-NASDAQ)

High fleet utilization contributes to well-above expectations 3rd fiscal quarter. Strong expansion of EBITDA to record level drives increase of target price.

By expecting the range of the EV-to-EBITDA valuation metric to expand to 7.9-to-9.8 over the next 12 months, a target price of \$556 is indicated at the high end of the range.

Current Price (02/09/21) \$493.43
Valuation \$556.00

OUTLOOK

AMERCO is the parent company of U-Haul International, the world's largest consumer truck and trailer rental company. U-Haul is also the third largest self-storage operator in North America.

A decade of continued growth in the number of truck & trailer rental stores, along with a steady expansion of the rental fleet, positioned AMERCO to benefit, in a leveraged manner, from the transition of a significant portion of the workforce to remote working locations.

Going forward, management is focused on optimizing vehicle utilization and reactivating the company's fleet rotation program.

RECENT EVENTS

Operational Summary of Third Quarter of Fiscal 2021

During the third fiscal quarter, AMERCO continued to benefit from demand for in-town and one-way rentals, resulting in remarkable earnings leverage from the company's expanded capacity in retail locations and fleet additions. In addition, volume in the Corporate Account business (aka the last mile business) also increased. **Total revenues increased 26.1% YOY** while expenses only increased 4.6%. This earnings leverage on AMERCO's asset base produced **earnings per share that were well above expectations**, resulting in AMERCO's stock to rally 2.8%.

Under the company's growth strategy, management had steadily increased capacity over the last few years, positioning the self-moving equipment rental business well to **benefit from the surge in demand in a leveraged manner**. Management has consistently increased the number of retail locations, box trucks and trailers in the rental fleet. During fiscal 2020 alone, company- owned locations increased 4.2%, the truck fleet expanded 5.4% and the trailer fleet increased 5.8%.

Self-storage demand also improved. After several years of declines in the all-in blended occupancy rate, **the last two quarters have experienced increases in occupancy**. The average monthly number of occupied units increased by 53,800 units (i.e. +15%) in the second fiscal quarter and by 66,900 units (+20%) during the third fiscal quarter. In the third fiscal quarter, the average monthly occupancy rate was 73.4%, up from the 66.1% low recorded in the fourth quarter of fiscal 2020.

Looking forward, new truck purchases had been delayed not only by manufacturing delays at the automakers, but also by management's desire to preserve liquidity in face of the pandemic. In addition, there was a pause in self-storage construction. As a result, depreciation expense declined, boosting reported earnings. As the company accelerates the fleet normalization program and self-storage construction to catch up to plan, depreciation expense will hamper earnings growth.

On other hand, the payment of a \$123 million tax refund is pending, and the recently filed fiscal 2020 tax return requests carry-backs of \$258 million. The cash refunds will bolster the company's liquidity position and could certainly help fund the planned fleet normalization program and self-storage construction.

Third Quarter of Fiscal 2021 Financial Results

On February 3, 2021, AMERCO reported financial results for the third fiscal quarter ending December 31, 2020. **Revenues and earnings were well above our expectations. Total revenues increased 26.1% YOY** to approximately \$1.170 billion, driven by a 30.0% increase (or an increase of \$186.7 million) in **self-moving equipment rentals** and 37.0% increase (or \$20.1 million) in **self-moving/self-storage products & services**. In the **self-storage area**, revenues increased 15.3% (or \$16.3 million).

In the **self-moving equipment rental** business, **revenues increased across all metrics: volume of transactions and average revenue per transaction** for both in-town and one-way rentals of trucks and trailers, along with volume in the corporate account business. Furthermore, the **rate component** of average revenue per transaction was particularly strong.

In **self-moving/self-storage products & services**, the 37% revenue increase was due to increased sales of hitches, moving supplies and propane.

In the **self-storage** area, revenues increased 15.3% (or \$16.3 million) as the average monthly number of occupied units increased by 20%, driven by occupancy gains at existing locations and an 10% increase in new capacity (4.1 million net rentable square feet) over the last 12 months.

Total costs and expenses increased only 4.6% (or \$38.7 million). **Cost of sales** and commission expenses increased 29.5% and 30.6%, respectively, in line with the increase in sales activity in self-moving rentals and products & services business lines. Also, **depreciation expense** decreased \$17.5 million (or 10.3%), primarily due to a slowdown in the expansion of the rental fleet as COVID-19 has delayed new truck production.

Earnings from operations increased 252% (or by \$203.4 million) to \$283.9 million compared to \$80.6 million in the comparable quarter last year. Income tax expense increased 523% to \$58.59 million.

For the third fiscal quarter, AMERCO reported a net income of \$183.0 million (or **\$9.33 per diluted share**) compared to \$30.9 million (or \$1.58 per diluted share) for the comparable third fiscal quarter last year. Shares outstanding have remained stable at 19,607,788 shares for a decade.

As of December 31, 2020, AMERCO has a **strong liquidity position** in the Moving and Storage operating segment of approximately \$1.34 billion (cash plus availability from existing loan facilities). **Working capital significantly improved** sequentially to over \$5.8 billion.

Insurance Operations

On September 24, 2020, **AM Best upgraded** the financial rating of **Repwest Insurance Company** to **A**.

EXECUTIVE SUMMARY OF MANAGEMENT'S U-HAUL GROWTH STRATEGY

Management's goal is to be the **predominant provider of moving and storage services** for "do-it-yourself" consumers in North America through U-Haul International. The company has developed **complementary verticals** to better serve its customers, from moving supplies (boxes, tape etc.) and trailer hitches to ancillary products/services, such as the filling of propane tanks and specialty extension services, such as U-Box (portable moving and storage units) and eMove (an online marketplace of independent moving and self-storage affiliates).

AMERCO is one of the leading companies in the **self-storage** industry (the third largest self-storage operation in North America), a complementary operation and logical extension of its self-moving business.

AMERCO also owns holds **two insurance companies**: a property & casualty company (Repwest Insurance) that offers rental coverage to customers (through Safemove, Safetow and Safestor policies) and a life insurance company (Oxford Life Insurance), initially held for insuring employees, but later expanded into specialty lines.

U-Haul maintains and continually enlarges a fleet of rental equipment, including trucks, trailers and towing devices. Historically, revenue growth has been achieved by

- **Growing the distribution network**
 - The number of company's retail locations has grown at a 5-year CAGR of 5.23%
- **Increasing the size of the fleet**
 - The truck fleet has grown at a 5-year CAGR of 5.45%
 - The trailer fleet has grown at a 5-year CAGR of 3.49%

- **Expanding the self-storage footprint**
 - The number of self-storage locations has grown at a 5-year CAGR of 6.39%
 - The number of rentable units has grown at a 5-year CAGR of 9.53%
 - The rentable square footage has grown at a 5-year CAGR of 8.58%

As a result, AMERCO's revenues have increased at a 5-year CAGR of 5.29%

Operationally, management strives to maximize **vehicle utilization** by adjusting the distribution of the truck and trailer fleets among the 2,065 company stores and approximately 20,100 independent stores. The company's earning leverage is highly dependent on equipment utilization as well as **pricing** and **volume**. The critical factor of vehicle utilization in the truck rental business hinges on the geographical distribution of the fleet after one-way rentals, since U-Haul does not back-haul equipment. Traditionally, pricing has been the method by which equipment can be relocated.

In order to maintain the company's top-line growth trajectory, management must **allocate an appropriate level of investments** into the retail fleet network, the fleet itself (with new trucks, trailers and towing devices) and the self-storage business. Over the past decade, management has consistently increased the total number of rental trucks in the fleet with new additions exceeding the number of trucks removed for retirement. Hence, management also faces the challenges of executing its **fleet rotation program**, requiring both the procurement of truck chassis from North American manufacturers and the retirement of vehicles through the used-truck sales market.

KEY POINTS

- AMERCO primarily provides "**do-it-yourself**" **moving and storage** and **supplies products and services**. The company also has Property and Casualty and Life Insurance subsidiaries.
- U-Haul is one of the most recognized names in North America and has a commanding share of the consumer **self-moving business**.
 - U-Haul has a network of more than **22,160 company-operated and independent locations** in all 50 United States and 10 Canadian provinces.
 - As of the end of the company's fiscal year (March 31, 2020), the size of U-Haul's rental fleet was approximately **176,000 trucks, 127,000 trailers** and **41,000 towing devices**
 - U-Haul also provides **moving supplies** (boxes, tape etc.) and the service of selling and installing **trailer hitches**
 - The company has expanded into ancillary products/services
 - **U-Box** (portable moving and storage units)
 - **CollegeBoxes** (a packing, storage and shipping solution for college students)
 - **Moving Help** (an online marketplace connecting consumers to service providers who help with packing, unpacking, loading and unloading)
 - **Storage Affiliates** (through the WebSelfStorage platform enables independent self-storage operators to manage their facility and connect to customers on uhaul.com)
 - The company also supplies **propane** as alternative-fuel for vehicles and for backyard barbecues.
- U-Haul is also one of the leading companies in the **self-storage** industry
 - a complementary operation to the self-moving business
 - As of the end of the company's fiscal year (March 31, 2020), U-Haul operates almost **774,000 rentable storage units** consisting of approximately **66.7 million square feet of storage space** in all 50 United States and 10 Canadian provinces
 - Individual storage units range in size from 6 square feet to 1,000 square feet

- The self-storage business also provide value-added services, such as an electronic monitoring system (Max Security), access during extended hours and individually alarmed units.
- Property and Casualty Insurance - **Repwest Insurance**
 - Repwest underwrites components of the Safemove, Safetow, and Safestor protection packages to U-Haul customers
- Life Insurance - **Oxford Life Insurance**
 - Oxford underwrites life and health insurance products, primarily to the senior market
- AMERCO does not have a formal dividend policy; however, since December 2011, the Board has periodically declared the payment of special dividends.
- In mid-August, the management of AMERCO provides an Investor Presentation via live webcast.

OVERVIEW

Headquartered in Reno, AMERCO is North America's largest "do-it-yourself" moving and storage operator. U-Haul offers "**do-it-yourself**" **moving and storage and supplies products and services** to help people move and store their household and commercial goods in the United States and Canada. The company also has **Property and Casualty Insurance** and **Life Insurance** subsidiaries, Repwest Insurance and Oxford Life Insurance, respectively.

AMERCO®

AMERCO Annual Report

Founded in 1945 as U-Haul Trailer Rental Company, the company began by renting trailers. Beginning in 1959, management broadened the scope of the company's operation by renting trucks on a one-way and in-town basis exclusively through independent U-Haul dealers. In 1969, U-Haul Trailer Rental Company was incorporated as Advanced Management Engineering Research Company (AMERCO) in Nevada. Since 1974, the company developed a network of U-Haul managed retail centers, through which it rents its trucks and trailers and sells moving & self-storage products and services to complement its independent dealer network.

The company operates in **three reportable segments**:

- **Moving & Storage** (through its AMERCO, U-Haul and Amerco Real Estate Company subsidiaries)
- **Property & Casualty Insurance** (through Repwest Insurance Company)
- **Life Insurance** (through Oxford Life Insurance Company)

AMERCO		
Segment Analysis	FY 2020	% of
(in \$US '000, except percentages)	3/31/2020	Revenues
Revenues		
Self-moving equipment rentals	2,692,413	67.7%
Self-storage revenues	418,741	10.5%
Self-moving/ self-storage products & services	265,091	6.7%
Property management fees	30,406	0.8%
TOTAL MOVING & STORAGE		85.6%
Life insurance premiums	127,976	3.2%
P&C insurance premiums	66,053	1.7%
Net investment & interest income	137,829	3.5%
Other revenue	240,359	6.0%
TOTAL REVENUES	3,978,868	100.0%

The **Moving & Storage** segment, by far the company's largest and most significant segment, engages in the **rental of trucks, trailers**, specialty rental items, and **self-storage** spaces to the "do-it-yourself" mover and management of self-storage properties owned by others, as well as **sales of moving supplies**, towing accessories, and **propane**. Operations are conducted under the registered trade name U-Haul® throughout the United States and Canada. The company sells U-Haul brand boxes, tape and other moving and self-storage products and services to do-it-yourself moving and storage customers at all of its distribution outlets. Net revenue from the Moving & Storage segment in fiscal 2020 accounted for approximately **85.6% of total revenues**.

The **Property and Casualty Insurance** segment offers moving and storage contents insurance products, including **Safemove** and **Safetow policies** that provide moving customers with a damage waiver, cargo protection, and medical and life coverage; and **Safestor**, which protects storage customers from loss of their goods in storage. Repwest provides loss adjusting and claims handling for U-Haul through regional offices across North America. **Repwest** also underwrites components of the Safemove, Safetow, and Safestor protection packages to U-Haul customers. The business plan for Repwest includes offering property and casualty products for other U-Haul related programs. Net revenue from the P&C segment in fiscal 2020 accounted for approximately **1.7% of total revenues**.

The **Life Insurance** segment includes **Oxford Life Insurance Company**, which provides life and health insurance products, primarily to the senior market through the direct writing or reinsuring of life

insurance, Medicare supplement and annuity policies. Net revenue from the life insurance segment in fiscal 2020 accounted for approximately **3.2% of total revenues**.

MOVING & STORAGE OPERATIONS

Self-Moving

AMERCO rents its distinctive orange U-Haul trucks and trailers through a network of over **2,065 company operated retail-moving centers** and approximately **20,100 independent U-Haul dealers**. The company also has a storage facility network with thousands of independent service providers participating as Storage Affiliates. As of March 31, 2020, the company's **rental fleet** consisted of more than **176,000 trucks**, **127,000 trailers** and **41,000 towing devices**.

AMERCO Presentation August 2020

The company has at least six different truck models and eight major types of trailers. The truck chassis are engineered by domestic truck manufacturers and made to U-Haul's specifications. The chassis are delivered to one of seven U-Haul manufacturing centers to be fitted with a cargo box. These manufacturing centers also build the trailers from the "ground up." Eleven (11) manufacturing and assembly facilities are strategically located throughout the United States in order to efficiently provide vehicles regionally.

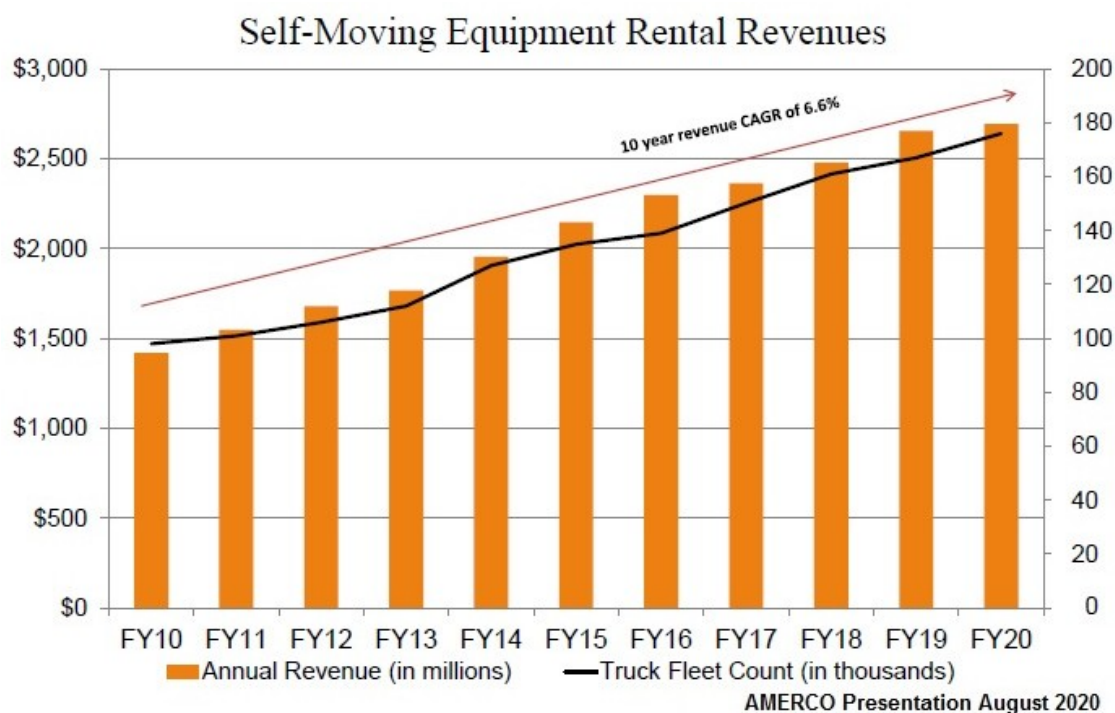

Commonality of features (gear boxes, rear axles, tires, etc.) and parts reduce maintenance expenses and improve the efficiency of the parts inventory. All engines are gasoline powered to potential fueling problems. The company provides almost all of the preventive maintenance on the fleet with the exception of warranty claims.

U-Haul dealers also offer moving supplies, including a wide variety of U-Haul-brand boxes, tape and packing materials. In addition, specialty boxes are available for dishes, computers, other electronic equipment, hanging clothes, etc.

U-Haul is one of the most recognized names in the world and has a commanding share of the consumer self-moving business. The company is the consumer's number one choice as the largest installer of permanent trailer hitches in the automotive aftermarket industry. U-Haul's brand awareness is very high. A survey of public brand identification of truck manufacturers placed U-Haul second behind Mack Truck, even though U-Haul does not make trucks. The name U-Haul is as well-known as Kleenex (Kimberly-Clark), Coke (The Cola-Cola Company) and Clorox. U-Haul trucks often appear in movies and television without AMERCO having to pay for advertising.

Independent dealers receive trucks on a consignment basis and are paid a commission based on gross revenue generated by the dealer. The independent dealers are not franchisees. U-Haul does

not franchise its name. Dealer contracts can be terminated upon 30 days written notice by either party.

10-year CAGR	7.11%	6.03%	5.13%	3.96%	3.04%	3.12%

To further leverage AMERCO's web-based technology platform, the company developed **eMove**[®], an online marketplace that connects consumers with a network of affiliates of independent moving service providers and independent self-storage affiliates that have been vetted by U-Haul. Through MovingHelp.com, service providers can provide help to pack and load items while the Storage Affiliates offer self-storage services where U-Haul may not have facilities that are conveniently located for the consumer.

A component of the truck rental fleet is the disposal of trucks that are removed from the fleet for retirement. Typically, as new trucks are added to the fleet, older (high mileage) trucks are and sold. This dynamic process affects fleet size, non-cash depreciation charges, proceeds from the sale of retired trucks (which are dependent on the strength/weakness of the used truck market) and the availability of rentable trucks.

Furthermore, U-Haul sells and installs a broad range of **hitches** and components for towing trailers, boats, jet skis, motorcycles, campers, horse trailers etc. Management believes that U-Haul is the largest seller and installer of hitches and towing systems in North America.

U-Haul is also one of the largest refillers of **propane** tanks in North America, primarily for alternative-fuel vehicles and backyard barbecues. The company's trained and certified personnel provide propane at nearly 1,200 locations.

The moving truck and trailer rental industry is large and highly competitive. There are two distinct users of rental trucks: commercial and "do-it-yourself" residential users. AMERCO focuses primarily on the "do-it-yourself" residential user and is the largest self-moving company with over 50% of the applicable market. There are few large competitors and new entrants have found it difficult to achieve a significant market share. Within this segment, the company's major competitors are Avis Budget Group, Inc. (NASDAQ: CAR) and Penske Truck Leasing (a closely-held company). Enterprise Rent-a-Car (a private holding company) started a small truck service, which targets the light local delivery business.

Consumer self-moving and self-storage are relatively single-digit, top-line growth industries (around 5% annually). However, both are highly fragmented industries; therefore, there are opportunities to gain market share. Both industries are less cyclical than most, since in bad times some people downgrade their living quarters (and some move back in with their parents) and use self-storage and consumer truck rental to move and store their belongings. In good economies, people move up-scale from small apartments to larger ones or to houses.

Storage

The primary market for storage rooms is for the storage of household goods. U-Haul serves millions of 'do-it-yourself' household moving customers annually. A large number of renters use a rental truck or trailer to move goods in or out of the storage facilities. It was a logical extension of the do-it-yourself-moving business to be also in the self-storage industry.

U-Haul operates almost **774,000 rentable storage units**, comprising approximately **66.7 million square feet** of storage space in all 50 United States and 10 Canadian provinces. The target market for the rental of storage units is for the storage of household goods. Individual storage units range in size from 6 square feet to 1,000 square feet. The company's provide **competitive self-storage services**, such as an electronic system that monitors the storage facility 24 hours a day (Max Security), access during extended hours and individually alarmed units. Many locations include climate controlled facilities, which is a growing trend in the self-storage industry.

The self-storage market is large and highly fragmented. The largest national storage competitors include Public Storage Inc. (NYSE: PSA), Extra Space Storage, Inc. (NYSE: EXR), Life Storage Inc. (NYSE: LSI), formerly known as Sovran Self-Storage Inc., CubeSmart (NYSE: CUBE) and National Storage Affiliates Trust (NYSE: NSA).

INSURANCE OPERATIONS

AMERCO has two insurance subsidiaries, **Repwest Insurance Company** (Property and Casualty) and **Oxford Life** (Health, Life and Annuities). These companies were originally set up to serve U-Haul employees and the U-Haul dealers (many of whom were one proprietor gas station owners that were not able to obtain low priced insurance). However, over the years, both insurance subsidiaries branched out into other lines of insurance. Oxford Life and Repwest have usually been profitable over the last eight years. AMERCO decided to scale back Repwest's operations, and the casualty business now only insures U-Haul's risks. Oxford Life is focused on Medicare supplement, annuities and life insurance.

A number of years ago AMERCO, formed a relationship through Mark Shoen called SAC that allowed the company to expand U-Haul-managed self-storage locations. AMERCO sold real estate to SAC in return for debt and managed the storage properties for a fee. The debt was paid down by SAC in 2012.

Repwest will continue to provide loss adjusting and claims handling for U-Haul and underwrite components of the Safemove, Safetow and Safestor protection packages to U-Haul customers. Repwest has started to grow again and its revenue is tied to the operations of moving and storage. Oxford is pursuing its goals of expanding its presence in the senior market through the sales of its Medicare supplement, life and annuity policies.

Oxford Life Insurance is rated A- by A.M. Best while **Repwest Insurance Company was upgraded to an A financial rating on September 24, 2020**. Oxford is a member of the Federal Home Loan Bank.

AMERCO Presentation August 2020

The insurance industry is highly competitive with a large number of life insurance companies and property and casualty insurance companies. In addition, the marketplace includes financial services firms offering both insurance and financial products. Some of the insurance companies are owned by stockholders and others are mutual companies that are owned by policyholders. Many competitors have been in business for a longer period of time or possess substantially greater financial resources and broader product portfolios than AMERCO's insurance companies. The company competes in the insurance business based upon price, product design, and services rendered to agents and policyholders.

VALUATION

AMERCO operates in both the “do-it-yourself” **consumer truck and trailer rental business** and in **the self-storage industry**. The vehicle rental business requires considerable investment in infrastructure (rental facilities and vehicles). Earnings in this segment tend to exhibit cyclicity, which is a consequence of the substantial earnings leverage that can be derived from improved utilization of the fleet. On the other hand, despite also requiring a significant investment in infrastructure (storage buildings), self-storage operations tend to be much less cyclical and provide steady cash flow.

From an investment perspective, both types of operations are **generally valued on the metric of EV-to-EBITDA** (Enterprise Value-to-Earnings Before Interest, Taxes, Depreciation and Amortization). From the Industry Comparable table below, it is easily observable that self-storage operations are valued at a much higher EV-to-EBITDA basis (21.8 on average compared to only 5.8 for truck rental companies) due to the each industry’s fundamental attributes described above. Due to the small sample size of public truck rental companies (since Penske and Enterprise are not publicly traded), the EV-to-EBITDA metric is distorted. If one expands the rental industry to include Equipment Rental & Leasing operations, the average EV-to-EBITDA ratio expands to 7.5.

<i>Industry Comparables</i>	Ticker	% Chg YTD	P/E CFY	Price/ Book	Price/ Sales	EV/ EBITDA

Industry Mean		4.6	37.9	5.0	10.1	21.8

Over the last ten years, AMERCO’s stock has traded in an ever increasing EV-to-EBITDA range. For historical perspective, in 2011 the range was 2.2-to-3.9; by 2015 the range expanded to 6.0-to-7.6. In the last 12 months, the range was between 7.6 and 9.3. On average, the end-points of the range have increased by approximately by 0.54 each year over the last decade.

We believe there are several fundamental drivers that are causing the range end-points to increase, two of which relate to the company’s operations. First, the base of operations is growing with the truck fleet increasing at a 10-year CAGR of 6.03%, the number of company stores having grown at 3.96% and self-storage square-footage having increased by a CAGR of 6.51%. Second, the rate of self-storage square-footage growth is accelerating with the last two years increasing by just under 10% in both FY 2019 and FY2019. As a result, the higher multiple self-storage operations are becoming a larger percentage of the company from a low base (10.5% of revenues in FY 2020) and further expanding the EV-to-EBITDA multiple.

Looking out 12 months, we expect the EV-to-EBITDA range to expand to 8.1-to-9.8. At the high end of the range, a **target price of \$556** is indicated.

RISKS

- AMERCO's business is subject to many economic factors that are not included in our forecasts. These include the impact of high fuel costs, significant economic downturns, and a substantial decline in housing starts, among others.
- Revenues (and therefore earnings) are seasonal, due to changes in consumer behavior as the weather changes. It is assumed that past weather conditions continue to be relatively the same over the quarterly time frames of the past.
- U-Haul purchases truck chassis from a limited number of domestic manufacturers e.g. Ford Motor Company and General Motors Corporation. If the production or quality of product is hindered, it could have a negative impact on AMERCO's operations and stock price.
- U-Haul maintains a large fleet of rental equipment. The company's rental truck fleet rotation program is funded internally through operations and externally from debt and lease financing. A challenging financial market could adversely affect the company's fleet rotation program.
- Another important aspect of U-Haul's fleet rotation program is the sale of used rental equipment. The sale of used equipment provides the organization with funds that can be used to purchase new equipment. However, at times, the used rental equipment market weakens in response to various economic factors. During such times of weak pricing and the near absence of demand, the company's financial results could be adversely affected by increasing depreciation expense, losses on the sale of retired equipment (due to net proceeds on sales falling short of estimated residual values) and decreases in expected cash flows from the sales of used equipment.

INSIDER TRADING AND OWNERSHIP

Insiders hold or control about 46.4% of outstanding shares. Willow Grove Holdings LP (a Shoen family investment vehicle) beneficially owns 9,092,814 shares (or 42.5% of the shares outstanding). In addition, the Employee Stock Ownership Plan (ESOP) holds 1,003,040 shares (5.1%)

Institutions currently hold approximately 36.2% of the outstanding shares. The largest institutional holders include The Vanguard Group (3.8% of the shares outstanding), BlackRock Institutional Trust Company (3.5%), Wellington Management Company (3.1%), Abrams Capital (2.9%), and Dimensional Fund Advisors (2.4%).

DISCLOSURES

The following disclosures relate to relationships between Zacks Small-Cap Research ("Zacks SCR"), a division of Zacks Investment Research ("ZIR"), and the issuers covered by the Zacks SCR Analysts in the Small-Cap Universe.

ANALYST DISCLOSURES

I, Steven Ralston, hereby certify that the view expressed in this research report accurately reflect my personal views about the subject securities and issuers. I also certify that no part of my compensation was, is, or will be, directly or indirectly, related to the recommendations or views expressed in this research report. I believe the information used for the creation of this report has been obtained from sources I considered to be reliable, but I can neither guarantee nor represent the completeness or accuracy of the information herewith. Such information and the opinions expressed are subject to change without notice.

INVESTMENT BANKING AND FEES FOR SERVICES

Zacks SCR does not provide investment banking services nor has it received compensation for investment banking services from the issuers of the securities covered in this report or article.

Zacks SCR has received compensation from the issuer directly, from an investment manager, or from an investor relations consulting firm engaged by the issuer for providing non-investment banking services to this issuer and expects to receive additional compensation for such non-investment banking services provided to this issuer. The non-investment banking services provided to the issuer includes the preparation of this report, investor relations services, investment software, financial database analysis, organization of non-deal road shows, and attendance fees for conferences sponsored or co-sponsored by Zacks SCR. The fees for these services vary on a per-client basis and are subject to the number and types of services contracted. Fees typically range between ten thousand and fifty thousand dollars per annum. Details of fees paid by this issuer are available upon request.

POLICY DISCLOSURES

This report provides an objective valuation of the issuer today and expected valuations of the issuer at various future dates based on applying standard investment valuation methodologies to the revenue and EPS forecasts made by the SCR Analyst of the issuer's business.

SCR Analysts are restricted from holding or trading securities in the issuers that they cover. ZIR and Zacks SCR do not make a market in any security followed by SCR nor do they act as dealers in these securities. Each Zacks SCR Analyst has full discretion over the valuation of the issuer included in this report based on his or her own due diligence. SCR Analysts are paid based on the number of companies they cover.

SCR Analyst compensation is not, was not, nor will be, directly or indirectly, related to the specific valuations or views expressed in any report or article.

ADDITIONAL INFORMATION

Additional information is available upon request. Zacks SCR reports and articles are based on data obtained from sources that it believes to be reliable, but are not guaranteed to be accurate nor do they purport to be complete. Because of individual financial or investment objectives and/or financial circumstances, this report or article should not be construed as advice designed to meet the particular investment needs of any investor. Investing involves risk. Any opinions expressed by Zacks SCR Analysts are subject to change without notice. Reports or articles or tweets are not to be construed as an offer or solicitation of an offer to buy or sell the securities herein mentioned.

CANADIAN COVERAGE

This research report is a product of Zacks SCR and prepared by a research analyst who is employed by or is a consultant to Zacks SCR. The research analyst preparing the research report is resident outside of Canada, and is not an associated person of any Canadian registered adviser and/or dealer. Therefore, the analyst is not subject to supervision by a Canadian registered adviser and/or dealer, and is not required to satisfy the regulatory licensing requirements of any Canadian provincial securities regulators, the Investment Industry Regulatory Organization of Canada and is not required to otherwise comply with Canadian rules or regulations.
